### Universal Technical Institute Reports Fiscal Year 2013 Fourth Quarter and Year-End Results

SCOTTSDALE, Ariz., Dec. 3, 2013 /PRNewswire/ -- Universal Technical Institute, Inc. (NYSE: UTI), the leading provider of automotive technician training, today reported revenues for the fourth quarter ended September 30, 2013 of \$95.8 million, a 5.4 percent decrease from \$101.3 million for the fourth quarter of the prior year. Net income for the fourth quarter ended September 30, 2013 was \$0.9 million, or 4 cents per diluted share, compared to \$1.6 million, or 6 cents per diluted share, for the fourth quarter ended September 30, 2012. Severance costs of \$1.6 million (pre-tax), primarily related to the announced retirement of our Chairman of the Board, impacted diluted earnings per share by approximately 3 cents for the quarter.

Revenues for the year ended September 30, 2013 were \$380.3 million , an 8 percent decrease from \$413.6 million for the year ended September 30, 2012 . Net income for the year ended September 30, 2013 was \$3.8 million , or 15 cents per diluted share, compared to \$9.0 million , or 36 cents per diluted share, for the year ended September 30, 2012 .

Return on equity for the trailing four quarters ended September 30, 2013 was 2.7 percent compared to 6.2 percent for the trailing four quarters ended Sept. 30, 2012.

"We were pleased to see new student start growth in the fourth quarter in excess of 9%, " said Kim McWaters, chief executive officer. "Despite the economic headwinds throughout the year, we successfully generated more quality inquiries at a lower cost, grew applications across all student segments and improved our consolidated graduate employment rate by 300 basis points to 85%. We expanded training programs with Mercedes Benz and Porsche and added two new manufacturer partners with GM and Peterbilt. As we look to 2014, our focus is on rebuilding our student population, continuing to improve our student outcomes and delivering enhanced operating results. "

#### **Student Metrics**

	2013	2012	2013	2012
		(Rounded	to hundreds)	
Total starts	6,900	6,300	15,000	15,700

End of period undergraduate full-				
time student enrollment	16,300	17,000	16,300	17,000

New student starts increased by approximately 9.5% for the fourth quarter ended September 30, 2013 compared with the same quarter last year, due to an increase in the number of students scheduled to start and one additional start date during the quarter. We anticipate new student starts to be up slightly for the six months ending December 31, 2013.

### **Fourth Quarter Operating Performance**

For the fourth quarter of 2013, revenues were \$95.8 million, a 5.4 percent decrease from \$101.3 million for last year's fourth quarter. The decrease in revenues primarily related to a decrease of 6.4 percent in average undergraduate full-time student enrollment. The decrease was partially offset by an increase in revenue per student. During the fourth quarter of 2013 and 2012, tuition excluded \$4.1 million and \$4.0 million, respectively, related to students participating in the Company's proprietary loan program which will be recognized as revenues when payments are received.

Operating income and margin for the fourth quarter of 2013 were \$1.4 million and 1.5 percent, respectively, compared to operating income and margin of \$2.3 million and 2.2 percent, respectively, in the same period last year. The decreases were primarily attributable to the decrease in revenues and were partially offset by decreases in compensation and advertising expense.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the fourth quarter of 2013 was \$7.1 million compared to \$8.4 million in the same period last year. See " Use of Non-GAAP Financial Information " below.

#### **Year Operating Performance**

Revenues for the year ended September 30, 2013 were \$380.3 million , an 8 percent decrease from \$413.6 million for the year ended September 30, 2012 .

Operating income and margin for the year ended September 30, 2013 were \$5.9 million and 1.6 percent, respectively, compared to \$14.1 million and 3.4 percent, respectively, for the year ended September 30, 2012. The decreases in operating income and margin were related to the decrease in revenues, partially offset by decreases in compensation and advertising expense. The severance costs related to the retirement of the Chairman of the Board of Directors impacted diluted earnings per share by approximately 4 cents for the year.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the year ended September 30, 2013 was \$29.8 million compared to \$39.5 million for the year ended September 30, 2012. See "Use of Non-GAAP Financial Information" below.

#### Liquidity

Cash, cash equivalents and investments totaled \$97.4 million at September 30, 2013, compared to \$101.7 million at Sept. 30, 2012. At September 30, 2013, shareholders' equity totaled \$138.8 million as compared to \$146.1 million at Sept. 30, 2012. We paid cash dividends of \$0.10 per common share quarterly for an aggregate payment of approximately \$9.8 million.

We purchased 561,400 shares of stock during the year ended September 30, 2013 at an average price per share of \$9.62 for a total cost of approximately \$5.4 million pursuant to the previously announced share repurchase plan. During the three months ended September 30, 2013, we purchased an immaterial number of shares.

Cash flow provided by operating activities was \$21.4 million for the three months ended September 30, 2013, compared to \$9.3 million for the three months ended September 30, 2012. Cash provided by operating activities was \$26.7 million for the year ended September 30, 2013 compared to \$18.5 million for the year ended September 30, 2012.

#### 2014 Outlook

In line with our previous guidance, we expect new student start growth over the six month period ending December 31, 2013. The growth we experienced in new student starts during the fourth quarter of 2013 should offset the decline we now anticipate for the first quarter of 2014, due primarily to one less start date. For the year ending September 30, 2014, we expect high single digit growth in applications and yet with the time lag for conversions, we expect relatively flat new student starts. With a focus on persistence and helping students overcome macro-economic headwinds with increased use of scholarships and smaller tuition increases, we expect a low single digit level of revenue growth. Despite these challenges, with a continuation of our focus on efficiencies and student outcomes, we believe we will be able to achieve meaningful growth in operating results.

### **Use of Non-GAAP Financial Information**

This press release and the related conference call contains non-GAAP (Generally Accepted Accounting Principles) financial measures, which are intended to supplement, but not substitute for, the most directly comparable GAAP measures. Management chooses to disclose to investors, these non-GAAP financial measures because they provide an additional analytical tool to clarify the results from operations and helps to identify underlying trends. Additionally, such measures help compare the Company's performance on a consistent basis across time periods. To obtain a complete understanding of the Company's performance these measures should be examined in connection with net income, determined in accordance with GAAP, as presented in the financial statements and notes thereto included in the annual and quarterly filings with the Securities and Exchange Commission. Since the items excluded from these measures are significant components in understanding and assessing financial performance under GAAP, these measures should not be considered to be an alternative to net income as a measure of the Company's operating performance or profitability. Exclusion of items in the non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring. Other companies, including other companies in the education industry, may calculate non-GAAP

financial measures differently than UTI does, limiting their usefulness as a comparative measure across companies. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures are included below.
