

Universal Technical Institute Recognized for Efforts to Train America's Veterans for In-Demand Careers

UTI campuses earn Military Friendly School distinction for 2022-2023

PHOENIX, March 14, 2023 /PRNewswire/ -- [Universal Technical Institute \(UTI\)](#), a division of Universal Technical Institute, Inc (NYSE: UTI), and a leading workforce solutions provider of transportation, skilled trades and energy education programs, is announcing it has once again earned the Military Friendly® School designation, which accounts for student retention and graduation and job placement rates, among other criteria. UTI's campuses in Avondale, Ariz., Sacramento, Rancho Cucamonga and Long Beach, Calif., Dallas and Houston, Texas, Lisle, Ill. and Exton, Penn., along with NASCAR Technical Institute in Mooresville, N.C. and Motorcycle & Marine Mechanics Institute in Orlando, Fla. were among the schools awarded for 2022-2023.

UTI first began earning the Military Friendly designation in 2011. The award is given to the top colleges, universities, community colleges and trade schools in the country that work to embrace military students and dedicate resources to ensure their success in the classroom and the workforce. Most UTI campuses are outfitted with a veteran-friendly space and UTI offers the Salute to Service Grant, which gives eligible veterans a 10% tuition discount.

"Veterans are highly trained, talented and agile, and among the most dedicated, capable and disciplined students and employees we've met," said Jerome Grant, chief executive officer of UTI. "It is our privilege to support them. Therefore, we have built a welcoming and supportive environment and programs that respect and appreciate their service and sacrifice. We are committed to helping our veterans reach their full potential."

In partnership with UTI, BMW and Premier Truck Group, offer on-base training programs, allowing active service members to train for careers as automotive or diesel technicians near the end of their military service contract.

"Universal Technical Institute and BMW provided me high-quality training and I'm now working as a tech at BMW of Murrieta here in Southern California," said Marco Justiniano, a U.S. Marine Corps veteran and graduate of the BMW MSTEP with UTI. "I worked for five years in the Marine Corps as an aviation technician and I've built on those skills today in an industry where I intend to spend a career."

Institutions earning the Military Friendly® School designation were evaluated using both public data sources and responses from a proprietary survey conducted by Vigtory. More than 1,800 schools participated in the 2022-2023 survey with 665 earning special awards for going above the standard. Final ratings were determined by combining the institution's survey scores with the assessment of the institution's ability to meet thresholds for Student Retention, Graduation, Job Placement, Loan Repayment, Persistence (Degree Advancement or Transfer) and Loan Default rates for all students and, specifically, for student veterans¹.

"Military Friendly® is committed to transparency and providing consistent data-driven standards in our designation process," said Kayla Lopez, National Director of Military Partnerships, Military Friendly®. "Our standards provide a benchmark that promotes positive outcomes and support services that better the educational landscape and provide opportunity for the military community. This creates a competitive atmosphere that encourages schools to evolve and invest in their programs consistently. Schools who achieve awards designation show true commitment in their efforts, going over and above that standard."

About Military Friendly ® Schools

The Military Friendly® Schools list is created each year based on extensive research using public data sources from more than 8,800 schools nationwide, input from student veterans, and responses to the proprietary, data-driven Military Friendly® Schools survey from participating institutions. The survey questions, methodology, criteria and weighting were developed with the assistance of an independent research firm and an advisory council of educators and employers. The survey is administered for free and is open to all postsecondary schools that wish to participate. Criteria for consideration can be found at www.militaryfriendly.com.

¹ Universal Technical Institute is an educational institution and cannot guarantee employment or salary.
