Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the safe harbor from civil liability provided for such statements by the Private Securities Litigation Reform Act of 1995 (set forth in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended). Forward-looking statements may contain words such as "goal," "target," "future," "estimate," "expect," "anticipate," "intend," "plan," "believe," "seek," "project," "may," "should," "will," the negative form of these expressions or similar expressions. These statements are based on our management's current beliefs, expectations and assumptions about future events, conditions and results and on information currently available to us. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. Discussions containing these forward-looking statements may be found, among other places, in the Sections entitled "Business," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" incorporated by reference from our most recent Annual Report on Form 10-K, in our subsequent Quarterly Reports on Form 10-Q and certain of our current reports on Form 8-K, as well as any amendments thereto, filed with the Securities and Exchange Commission (the "SEC").

In addition, statements that refer to projections of earnings, revenue, costs or other financial items in future periods; anticipated growth and trends in our business or key markets; cost synergies, growth opportunities and other potential financial and operating benefits; future growth and revenues; future economic conditions and performance; anticipated performance of curriculum; plans, objectives and strategies for future operations; and other characterizations of future events or circumstances, and all other statements that are not statements of historical fact are forward-looking statements. Such statements are based on currently available operating, financial and competitive information and are subject to various risks, uncertainties and assumptions that could cause actual results to differ materially from those anticipated or implied in our forward-looking statements due to a number of factors, including, but not limited to, those set forth under the section entitled "Risk Factors" in our filings with the SEC. Factors that might cause such a difference include, but are not limited to, failure of our schools to comply with the extensive regulatory requirements for school operations; our failure to maintain eligibility for federal student financial assistance funds; continued Congressional examination of the for-profit education sector; a disruption in our ability to process student loans under the Federal Direct Loan Program; regulatory investigations of, or actions commenced against, us or other companies in our industry; our inability to execute on our growth and diversification strategy including our failure to realize the expected benefits of our acquisitions; changes in the state regulatory environment or budgetary constraints; our failure to successfully integrate our acquisitions; offerings into our current program offerings; our failure to improve underutilized capacity at certain of our campuses; enrollment declines or challenges in our students' ability to find employment as a result of macroeconomic conditions; our failure to maintain and expand existing industry relationships and develop new industry relationships with our industry customers; our ability to update and expand the content of existing programs and develop and integrate new programs in a timely and cost-effective manner while maintaining positive student outcomes; our failure to effectively identify, establish and operate additional schools, programs or campuses; the effect of our principal stockholder owning a significant percentage of our capital stock, and thus being able to influence certain corporate matters and the potential in the future to gain substantial control over our company; the impact of certain holders of our Series A Preferred Stock owning a significant percentage of our capital stock, their ability to influence and control certain corporate matters and the potential for future dilution to holders of our common stock; loss of our senior management or other key employees; and other risks that are described from time to time in our filings with the SEC; the effect of public health pandemics, epidemics or outbreak, including COVID-19. Given these risks, uncertainties and other factors, many of which are beyond our control, you should not place undue reliance on these forward-looking statements. Neither we nor any other person makes any representation as to the accuracy or completeness of these forward-looking statements and, except as required by law, we assume no obligation to update these forward-looking statements publicly, or to revise any forward-looking statements, even if new information becomes available in the future.

This presentation also contains estimates and other statistical data made by independent parties, and by us, relating to market size and growth and other data about our industry and our business. This data involves several assumptions and limitations, and you are cautioned not to give undue weight to such estimates. In addition, projections, assumptions and estimates of our future performance and the future performance of the markets in which we operate are necessarily subject to a high degree of uncertainty and risk.

Healthcare Value Proposition

Overall employment in healthcare occupations is expected to result in about **2 million new jobs** from 2021-2031¹, driven by an aging workforce, increasing demand for healthcare and ongoing COVID-19 impacts

Healthcare support occupations projected to grow at **17.8%**, the fastest of all occupational groups from 2021-2031²

Demand is much greater for all healthcare occupations than the number of people available to fill the positions³

Fiscal 2023 Guidance

Fiscal 2023 Guidance

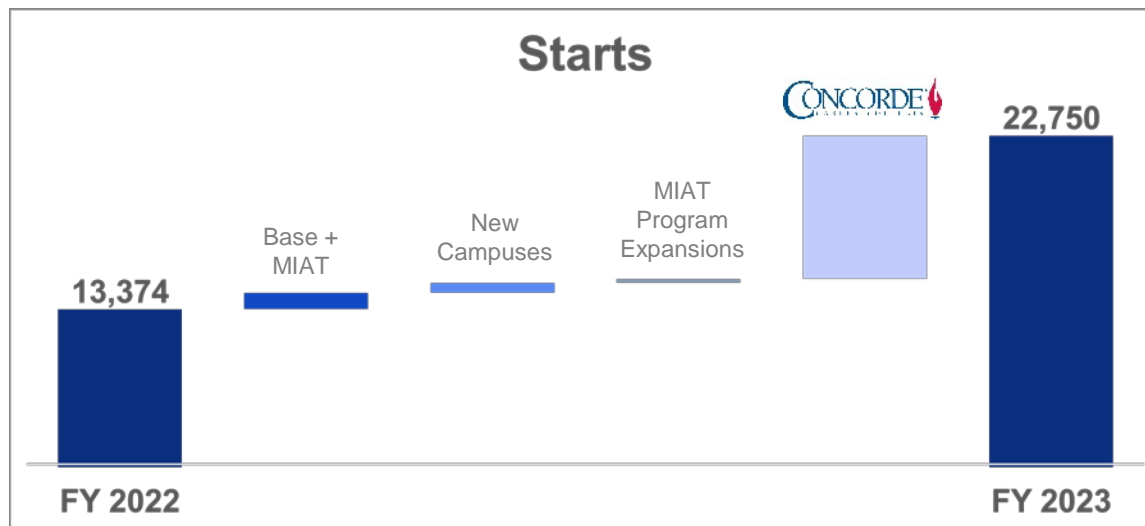

¹ FY23 Adj EBITDA excludes stock-based compensation; prior years updated for comparison. See bridge on subsequent page for more details on YoY performance..

² FY23 Adj NI impacted by a significant effective tax rate increase (5% to ~33%) due to the valuation allowance reversal, increased interest expense, and higher D&A..

³ FY23 Adj Free Cash Flow reflects \$60M-\$64M of capital expenditures before adjustments including the purchase of the Orlando, FL campus. FY23 capex includes residual investments for the Austin and Miramar campuses, UTI and Concorde planned program expansions, and a consistent level of annual maintenance capex. Company expects to adjust out ~80% of the projected 2023 capex as one-time growth investments.

Fiscal 2023 Starts & Revenue Bridges

Note: Bridges are intended to provide indicative year-over-year impacts only; Charts are not presented at full scale in order to highlight the relative impacts of year-over-year performance drivers.

Base & MIAT (net) includes the revenue impact of FY22 new student starts shortfall, partially offset by growth in FY23, largely in 2nd half of the year driven primarily by the high school channel, and net benefit from MIAT growth and synergies.

Growth Investments (net) represent investments in the admissions channels, to scale company infrastructure, and other growth drivers, along with inflationary impacts; partially offset by real estate optimization benefits and other cost efficiencies.

New Campuses represents the year over year impact of the Austin, TX and Miramar, FL campuses launched in FY2022. There are no new campuses planned in FY2023.

* Fiscal 2023 represents the midpoint of the Company's guidance ranges and includes 10 months of projected Concorde performance; For detailed reconciliations of Non-GAAP measures see the Appendix

Non-GAAP Information

Use of Non-GAAP Financial Information

Investor
Presentation

This presentation contains non-GAAP (Generally Accepted Accounting Principles) financial measures, which are intended for supplemental informational purposes only, and should not be considered substitutes for the most directly comparable GAAP measures. Management chooses to disclose to investors these non-GAAP financial measures because they provide an additional analytical tool to clarify the results from operations and help to identify underlying trends. Additionally, such measures help compare the company's performance on a consistent basis across time periods. Management defines EBITDA as net income (loss) before interest expense, interest income, income taxes, depreciation, and amortization. Management defines adjusted EBITDA as net income (loss) before interest expense, interest income, income taxes, depreciation and amortization, adjusted for stock-based compensation expense and items not considered as part of the company's normal recurring operations. Prior year amounts have been restated to include stock-based compensation expense. Management defines adjusted net income (loss) as net income (loss), adjusted for items that affect trends in underlying performance from year to year and are not considered normal recurring operations, including the income tax effect on the adjustments utilizing the effective tax rate. Management defines adjusted free cash flow as net cash provided by (used in) operating activities less capital expenditures, adjusted for items not considered as part of the company's normal recurring operations. Management chooses to disclose any campus adjustments as direct costs (net of any corporate allocations). Management utilizes adjusted figures as performance measures internally for operating decisions, strategic planning, annual budgeting and forecasting. For the periods presented, this includes, without limitation, acquisition-related costs for both announced and potential acquisitions, integration costs for completed acquisitions, start-up costs associated with new campus openings and other program expansion, stock-based compensation expense, costs related to the purchase of our campuses, lease accounting adjustments resulting from the purchase of our Lisle, Illinois campus and our campus consolidation efforts, severance expenses for the CEO transition, and intangible asset impairment charges. To obtain a complete understanding of the company's performance, these measures should be examined in connection with net income (loss) and net cash provided by (used in) operating activities, determined in accordance with GAAP, as presented in the financial statements and notes thereto included in the annual and quarterly filings with the Securities and Exchange Commission ("SEC"). Because the items excluded from these non-GAAP measures are significant components in understanding and assessing UTI's financial performance under GAAP, these measures should not be considered to be an alternative to net income (loss) or net cash provided by (used in) operating activities as a measure of UTI's operating performance or liquidity. Exclusion of items in the non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring. Other companies, including other companies in the education industry, may define and calculate non-GAAP financial measures differently than we do, limiting their usefulness as a comparative measure across similarly titled performance measures presented by other companies. A reconciliation of the historical non-GAAP financial measures to the most directly comparable GAAP measures is included in the following slides.

Information reconciling forward-looking adjusted EBITDA, adjusted net (loss) income and adjusted free cash flow to the most directly comparable GAAP financial measure is unavailable to the company without unreasonable effort. The company is not able to provide a quantitative reconciliation of forward-looking adjusted EBITDA, adjusted net (loss) income or adjusted free cash flow to the most directly comparable GAAP financial measure because certain items required for such reconciliation are uncertain, outside of the company's control and/or cannot be reasonably predicted, including but not limited to the provision for (benefit from) income taxes. Preparation of such reconciliation would require a forward-looking statement of income and statement of cash flows prepared in accordance with GAAP, and such forward-looking financial statements are unavailable to the company without unreasonable effort.
